Overtake me!

Aim of the Game:

- Two players attempt as many throws as possible over a 10 meter distance. Every successful throw, gains a point.
- Each player has 1 ball.

How to Play

- A distance of 10 meters is measured and marked. From one end of the route From (the throw line), player A's ball is placed at a distance of 1 meter. • The other player B now throws his ball so that it is as close as possible behind player 1s ball.

The initial ball is picked up by player 1 and thrown again from the release point in such a way that it just overtakes player 2's ball. You cannot touch the other players ball. Doing so, will result in a 1 point deduction.

- Continue this play until a players ball reaches the target line, 10 m away. Every successful throw is counted as a point.
- The aim of the game is to make as many legal throws as possible.
